

Variety	Type	Details
Basil, Genovese	Italian	The standard for Italian basil. Its authentic flavor is slightly sweet and peppery, and plants are slow to bolt. Easy to grow and adaptable—an excellent variety for home gardeners. Open Pollinated.
Basil, Thai	Thai	Purple blooms and stems and a wonderful distinctive spicy, anise-clove flavor prized for its flavoring in soups and curries. Very fragrant 12”-18” plants are suitable for containers. Open Pollinated.
Eggplant, Petch Siam	Asian	Very popular in India, Thailand, and Vietnam. Smallest of the cultivated varieties makes for easy processing -- great cut in half and stir-fried. Beautiful 2" round fruits with green and white variegation and firm, very mild flesh. Well-branched plants are high yielding. (F1) Hybrid.
Eggplant, Long Purple	Italian	Italian heirloom. This long, slender purple variety is both attractive and flavorful, harvested between 6 and 10 inches long. Dark purple coloring and pleasant mild flavor. Open Pollinated.
Eggplant, Black Beauty	Italian	Classic heirloom. Blocky, nearly black bell-shaped fruits have a slight signature ribbing and are spineless. Medium to thick skin is deep purple and glossy when mature. Compact plants benefit from staking to support heavy yields of large fruit. Open Pollinated.
Cucumber, Japanese Climbing	Slicer	An historic Japanese heirloom with strong grasping tendrils ideal for growing vertically up a trellis, but can also be grown on the ground. Tender, crisp, and slightly tart fruit up to 9” long is excellent for both slicing and pickling. Open pollinated.
Cucumber, Boston Pickling	Pickler	These little black-spine cukes are just the right size for pickling. Exceptional flavor is great for salads, too. Heavy yields from productive vines. Fruits are ready to pick from 2-6.” Open Pollinated.
Flower, Cosmos ‘Bright Lights’	Annual	Attracts pollinators with lacy foliage and silky flowers. Tolerates poor soils and heat. Also good for cutting. A brilliant selection of orange, yellow, and flame red.
Flower, Sunflower ‘Potpourri’	Annual	A whimsical selection of colors ranging from ivory and lemon to red and deep burgundy. Includes varieties ‘Vanilla Ice,’ ‘Lemon Queen,’ and ‘Autumn Beauty Mixed.’ Plants grow 5-7 feet tall.
Flower, Marigold ‘Crackerjack’	Annual	Bright ball-shaped flowers in yellow and orange on sturdy 2-3 ft plants that bloom all summer long. Great for companion planting with your summer veggies.
Flower, Marigold ‘Lemon/Tangerine Gems’	Annual	Attracts pollinators. Bushy dwarf marigolds with incredibly profuse blooms on dense mounds of lacy, scented foliage. Petite, single lemon and tangerine blossoms not only have delicious names, but they’re edible! A delightful accent for beds, patio containers and salads.
Flower, Marigold ‘Favourite Blend’	Annual	Attracts pollinators. An award winning variety from Europe features large flowers with a single row of petals in bright sunny colors surrounding a yellow or orange button center. Butterflies prefer this type of marigold over the full flowered doubles because it’s easier to reach the nectar.

		Grows quickly and flowers continuously with edible blooms until frost. Drought tolerant once established.
Flower, Zinnia ‘Giants of California’	Annual	A favorite mix of large, showy dahlia-flowered blooms in a variety of colors. Blooms freely until frost, especially if spent blooms are pinched.
Kale, Redbor	Curly	Beautiful frilly magenta kale which is both beautiful and tasty, with a mild and crisp flavor.
Kale, Toscano	Lacinato	The aptly named ‘dinosaur’ kale with extra dark green leaves that are not curled but have a heavily blistered, or savoyed, appearance. The most tender and soft of the kales, with a nice rich flavor, too.
Kale, Red Russian	Heirloom	An old standby that has home at the YGP farm year in, year out. Purple stems and flat, toothed, grey-green leaves with dark green and purple veins. A most versatile of green which eats great fresh in salads or in the frying pan. Stores well after harvest when dunked directly into cold water.
Swiss Chard, Bright Lights		The gold standard for multicolored Swiss chard. Lightly savoyed, green or bronze leaves with stems of gold, pink, orange, purple, red, and white with bright and pastel variations. Consistent growth rate and strong bolt resistance across all colors makes this a superior mix. Suitable for production year round.
Lettuce, Allstar Mix	Loose Leaf	A YGP standard for market growing. Ruffled edges and unique leaf shapes provide loft and texture. Includes Green Oakleaf, Red Oakleaf, Green Romaine, Red Romaine, Lollo Rossa and Redleaf lettuces. Good shelf life.
Melon, Tigger	Armenian	Extremely fragrant fruits are vibrant yellow with brilliant fire-red, zigzag stripes. The white flesh on the small 1 lb fruits gets sweeter in dry climates and the vigorous plant also yields heavily, even in dry conditions. This heirloom came from an Armenian market located in a mountain valley. Open Pollinated.
Melon, Sarah’s Choice	Cantaloupe	This most flavorful cantaloupe has been brought back in honor of previous Farm Director Sarah Perez-Sanz. Award-winning sweet and juicy flesh and attractive oval fruits with ideal 3 lb size. (F1) Hybrid.
Melon, Moon & Stars	Watermelon	Gabriel’s favorite melon ever. A legendary long-lost variety that has risen back to notice after having been rediscovered on a farm near Macon, Missouri. Large, 15” dark green oval fruits are covered with pea sized bright yellow “stars” and usually one larger “moon.” Foliage also exhibits this beautiful and unique spotting. Sweet pink flesh with big brown seeds, best for spittin.’ Gabriel has had it keep for up to a month in a cool location after harvest. Open Pollinated.
Okra, Clemson Spineless	Green	This spineless variety of okra is most popular. Vigorous 4’ plants produce an abundance of medium-green pods. The flowers are edible as well. They are an attractive ornamental, and produce well in containers. Open Pollinated.
Husk Cherry, Goldie		Small orange berry in a papery tomatillo-like husk. The wild sweet flavor is well-liked by the kiddos. Plants are profusely branching, prolific, and drop ripe fruits. Fruits can be eaten raw,

		dried like raisins, frozen, canned, or made into preserves, cooked pies, and desserts. Open pollinated.
Pepper, Habañero	Very Hot	Wrinkled fruits ripen from dark green to salmon orange on smaller plants which have a nice ornamental quality. Thin walled fruits are great fresh or dried. Each plant produces a heavy yield of these peppers which combine fruity and citrusy notes with lots of fire! Open Pollinated.
Pepper, Ace	Sweet	Bell variety with red fruit ripening extra early, a highly productive standard. Huge yields of medium sized 3-4 lobed fruits. Has apparent tolerance to blossom drop as nearly every flower produces a pepper. (F1) Hybrid.
Pepper, Serrano “Hot Rod”	Hot	A productive YGP standard featured at local restaurants. High-yielding serrano with avg 3" fruits borne on big plants over a long harvest period. The dark green fruits are traditionally eaten green but also make fine chipotles if allowed to ripen to red. (F1) Hybrid.
Pepper, Baron	Warm	This large-fruited Ancho pepper is highly-adaptable and performs well under challenging conditions. The fruits are very large, avg. 5" x 3", and are easy to stuff and cook in their signature dish, chiles rellenos. (F1) Hybrid.
Pepper, Red Flame	Hot	High yielding cayenne type perfect for hanging ristra displays. Skinny and thin-walled 6" fruits have a sweet-hot flavor and dry quickly, maintaining a bright crimson red color. Dried fruits have a tender flesh which is nice and soft when cooked. (F1) Hybrid.
Pepper, Banana “Goddess”	Sweet	Sweet banana pepper for pickling or fresh eating. 8-9" long, thick-walled, smooth fruits are borne on large plants. Fruits are mild when yellow and moderately sweet when they ripen red. (F1) Hybrid.
Pepper, Liebesapfel	Sweet	The “Love Apple,” bred by Gabriel’s friends Andrew and Sarah at Adaptive Seeds in Sweet Home, Oregon, originally from Søren Holt of Frøsamlerne, the Danish seed saving organization. Compact plants produce red ruffled peppers with sweet thick flesh. Very early and productive late into the season. Deeply lobed, flattened sheepnose/cheese type pimento. Seems to suffer fewer losses during final ripening than many bell-shaped peppers. Open pollinated.
Pepper, Jalapeño “Jedi”	Hot	Large high-yielding plants produce smooth, dark green 4" fruits that are resistant to cracking. (F1) Hybrid.
Pepper, Sugar Rush	Sweet-Hot	Long, peach colored fruits are packed with loads of super sweet, tropical flavor. The seeds bring a smoky, complex heat that when used together, creates a delicious and unusual flavor experience. A happy accident courtesy of adventurous pollinating insects buzzing between various varieties of capsicum baccatum, or Aji Peppers. Open Pollinated.
Pepper, Numex Joe E Parker	Warm	Great multipurpose chile for processing and fresh market. Medium-tall plant; for many the most productive traditional Anaheim type. Uniform fruits are the traditional semi-flattened shape. Open pollinated.
Pepper, Tolli’s Sweet	Sweet	Large, dependable yields of scarlet-red peppers. A favorite for fresh eating, frying, and canning recipes. Great added to tomato sauces. Open Pollinated.

Pepper, Lunchbox Mix, Orange, and Yellow	Sweet	Uniform color and a mix of yellow and orange lunchbox snack peppers have been combined in this collection. These beautiful, mini-sized peppers are remarkably sweet and flavorful. They are delicious sautéed, as an addition to salads and perfect for a snack. We had great success at YGP with these in 2017 and found the bushy plants to provide natural protection for the fruits from sun scald. Open Pollinated.
Pepper, Jimmy Nardello	Sweet	An old YGP standard brought back for 2018! Twisty long, thin-skinned Italian frying pepper. Has such a rich flavor (compared to a roasted apple) that this variety has been placed in "The Ark of Taste" by the Slow Food organization. Ripens a deep red, is very prolific (plants should be supported!), and does well in most areas. Also dries well. Open Pollinated.
Squash, Honey Bear	Winter Squash	Early, small to medium sized acorn with a deliciously starchy and sweet flavor. Compact bush plant. (F1) Hybrid.
Squash, Yellow Crookneck	Summer Squash	This easy-to-grow, heirloom yellow summer squash produces abundant fruits with graceful necks that are famous for flavor. 3-4' bush habit. Open Pollinated.
Squash, Butterscotch	Winter Squash	An All-America Selections award winning butternut. Single-serve mini size with unusually rich and sweet flavor due to higher sugar content than other butternut types. 1-2 lb. fruits on short, space-saving vines mature early and can be consumed at maturity. (F1) Hybrid.
Squash, Dark Star Zucchini	Summer Squash	This exciting new zucchini bred by Seeds of Change requires less water than other varieties. Open plants with smooth, spineless stalks yield classy dark green fruits all summer. 4' bush habit. Open pollinated.
Squash, Gold Nugget	Winter Squash	Early, 1-3 lb. pink-orange hubbard type winter squash. Prolific yielder of this personal sized squash. Fruits are borne on compact, bush plants. Dry, sweet orange flesh has a buttery flavor and is best enjoyed after a month or more of storage. Stores up to 6 months. Open pollinated.
Tomatillo, Toma Verde	Green	Early-maturing, large, flat-round green fruits. Good storage quality. Makes for incredible peach salsa! Open pollinated.
Tomato, Sunrise Bumblebee	Cherry	Little gems with gorgeous swirls of yellows and reds, inside and out, and a much loved fruity and tangy flavor. One ounce cherries sometimes show a pronounced beak at the blossom end. Part of the Artisan Tomato Series developed by plant breeder Fred Hempel. Open Pollinated.
Tomato, Blush	Cherry	Excellent sweet, fruity flavor scoring high in taste tests. Beautiful bright yellow tomato with a translucent quality has red stripes that appear as blossom-end red marbling develops. Elongated cherries similar in size to large and long olives. Open pollinated.
Tomato, Black Prince	Salad	Gabriel's all-time favorite tomato -- a productive all-purpose show-stopper. Russian heirloom with 5oz fruits that are very round and uniform, ripening to a deep chocolate brown. Produces early with a very deep, rich, smoky flavor. If you like Paul Robeson, try Black Prince. Open Pollinated.
Tomato, Black Cherry	Cherry	Beautiful black cherries look like large, dusky purple-brown grapes; they have that rich dynamic heirloom flavor that makes black tomatoes famous. Large vines yield well; very unique and delicious. Open pollinated.

Tomato, Brandywine	Slicer	Quite possibly the most popular heirloom vegetable in existence! Very large pink fruits with superb flavor described as “rich, loud, and distinctively spicy.” Potato Leaf type. Open Pollinated.
Tomato, Dark Galaxy	Salad	A Delicious Galactic Beauty with mottled skin resembling a scene from deep space, each fascinating fruit depicting the depth and beauty of the night sky. Dark Galaxy bears 2-8 ounce fruits that are flattened, with red and orange stripes covered in random speckles, and layered by deep blue. The vines themselves display a purple blush and grow 5-6 feet tall while producing good amounts of the stunning tomatoes. These works of art exhibit a juicy tangy sweetness. Open pollinated.
Tomato, Jaune Flamme	Salad	A YGP standard with ever-reliable production in Moab. Vigorous vines produce an abundance of 4 ounce apricot orange fruits that retain their deep orange color through roasting or drying. Thick-walled with a sweet tart flavor. Open pollinated.
Tomato, White Beauty	White Heirloom	Parchment-white tomatoes are extra smooth and beautiful. 8oz fruits renowned for their sweet, citrus taste that is richer and more complex than many white types. This variety is perfect for making a delicious white sauce or for eating fresh out of hand. Open Pollinated.
Tomato, Costoluto Fiorentino	Italian Sauce and Slicing	A super productive and early maturing Italian sauce and slicing tomato. The deeply ruffled fruit make the flavorful, bright red sauce that embodies Italian cuisine. Super vigorous and an all around hardy heirloom. Beautiful sliced on a sandwich. Open Pollinated.
Tomato, Hillbilly	Beefsteak	A HUGE, bi-color heirloom; brilliant yellow color with red marbling. Very large with a rich, sweet flavor. Juicy beefsteak type from West Virginia that is low in acid. Beautiful when sliced. Open pollinated.
Tomato, Amana Orange	Beefsteak	Big, 1 lb glowing orange beefsteaks with an intense, full flavor. Productive for a large heirloom. Open pollinated.
Tomato, Large Barred Boar	Beefsteak	Stocky plant produces flattened beefsteaks that are pink brown with metallic green stripes. Meaty pink flesh on 8-12oz fruits. Open pollinated.
Tomato, Cherokee Purple	Brown Heirloom	Unusual variety with full flavor. Medium-large, flattened globe fruits. Color is dusky pink with dark shoulders. Interior ranges from purple to brown to green. Relatively short vines. Open Pollinated.
Tomato, Big Beef	Beefsteak	Great combination of size, taste, and earliness. Large, blemish free, globe shaped red fruit with broad disease resistance. All America Selections award winner. (F1) Hybrid.
Tomato, Supersweet 100	Cherry	Cherry tomatoes bursting with sugary flavor. The scarlet, cherry-sized fruits are produced in long pendulous clusters right up to frost. (F1) Hybrid.
Tomato, Sungold	Cherry	Exceptionally sweet, bright tangerine-orange cherry tomatoes. Vigorous plants start yielding early and bear right through the season. (F1) Hybrid.
Tomato, Moskovich	Early	One of the most appealing extra-early heirlooms. So much better tasting than an ‘Early Girl.’ 4-6oz smooth globe shaped fruits are deep red with a rich flavor. Semi-determinate with good crack resistance. Open Pollinated.

Tomato, Yellow Pear	Cherry	The tall, vigorous vines supply 3/4-1 oz, yellow, pear shaped fruits with mild flavor. Perfect for salads. Gabriel loves pickling them when green and using ripe ones for sweet golden chutneys. Open Pollinated.
